

A group of diverse young children are running happily on a grassy field. In the foreground, a young girl with dark hair, wearing a bright pink sleeveless top and blue shorts, is running towards the camera with a joyful expression. To her right, another young girl with dark hair, wearing a teal tank top and black leggings, is also running. In the background, several other children of various ethnicities are running, some in blue dresses and others in white shirts. The scene is set outdoors with lush green trees and foliage in the background, creating a vibrant and energetic atmosphere.

LETTER FROM BOARD PRESIDENT

PAUL A. DUNN

Dear Friends of Head Start of Greater Dallas,

Head Start of Greater Dallas, Inc. is excited to share that it will continue to resolutely assist Dallas County's most vulnerable population. This past year has been a year of change. In its 31 year history, Head Start of Greater Dallas, Inc. (HSGD) has grown accustomed to many transitions, nationally and locally, within the early childhood education sector. Nevertheless, Head Start of Greater Dallas continues to provide quality service provision for children ages birth to five and their families. The agency is agile which is attributed to the impressive expertise of its staff and the support of the community. Thank you!

As we look at the year in review, HSGD's funding was transformed to allow the agency to be more targeted to serve 2,343 Head Start aged children (ages 3 to 5) in areas of high need in Dallas County and to expand

more into the Early Head Start space, another area of growth. With our new funding structure, the agency will be serving 272 Early Head Start children to meet the demand of the ever changing dynamics of the community. New providers in the market have allowed the children who need the early childhood advantage to receive it. Nevertheless, Head Start of Greater Dallas, Inc. still remains the largest provider of Head Start services in Dallas County, serving 2,615 Early Head Start, Early Head Start Childcare Partnership and Head Start children. In addition, the board is conducting its search for the next CEO and we are currently reviewing candidates. Meanwhile, HSGD's governing body is focused on the future of HSGD and exploring innovative ways we can engage the community within this awesome agency. The story of Head Start of Greater Dallas is told mostly through engagement. I could tell you about it, but you need to see it! I encourage you to join me, the Board of Directors and others in the community to support the agency in your time and in your talents.

The work that HSGD does is very special. The processes to offer quality programming have been imitated by many. However, Head Start of Greater Dallas, Inc. is the leader in early childhood development and comprehensive family services. HSGD is steadfast in its promises to ensure children are kindergarten ready and families become self-sufficient.

Thank you for your support!

A handwritten signature in black ink that reads "Paul A. Dunn". The signature is fluid and cursive, written in a professional style.

LETTER FROM COO/CEO

KATHRYN L. MCCARTNEY

Head Start of Greater Dallas, Inc. continues to be the largest Head Start program in Dallas County and remains committed to providing quality early childhood services to our zero to five population in Dallas County. This is accomplished through continuous improvement, data driven goal development and child outcomes. We continue our strong Family and Child Engagement, ensuring our families are equipped with knowledge and skills to help their children perform at grade level as they transition to kindergarten and beyond.

It is our belief, parents are their children's first teacher; that is why we continue to encourage and engage our families in the accomplishment of their goals. A child is not successful unless the parent is successful. That is what we strive for - "Family Success."

This has been a year in review for Head Start of Greater Dallas, Inc. We are expanding our Early Head Start program to have classrooms in areas of Dallas County where the seats are most needed. We continue our strong partnerships with Vogel Alcove, serving our homeless population, Mi Escuelita, Dallas, Irving and Lancaster Independent School Districts and the American Care Academy. It is with great pleasure we welcome our newest school facility, Grant East Head Start, through our partnership with Dallas Can Academy. Through these partnerships, we are able to serve the most vulnerable population in Dallas County.

Head Start of Greater Dallas, Inc. continues to support our Science and Math, Dual Language Policy to Practice and Teacher Professional Pipeline through Dallas County Community College District Initiatives.

Ninety percent of our Strategic Plan has been accomplished through children, family and staff outcomes. As we focus on the next five-year strategic plan we are looking toward continued expansion of our Early Head Start program which serves children ages 0-3 years old. I would like to thank our Board of Directors for their continued support, guidance and sharing their expertise. The Head Start staff have proven over and over their commitment to serving children and families, ensuring positive outcomes, partnering with the community, to continuous learning and personal growth to provide the best resources to our families.

Kathryn L. McCartney

HEAD START's primary source of funds (80%) was provided by federal grants from the Department of Health & Human Services and the Department of Agriculture. Private/state grants and contributions provided 0.09% of funding while nonfederal, including in-kind, represented 25%. Actual federal expenditures for the year ended 2/29/2020 were 78% of the agency's total budget compared to 27% for actual nonfederal expenditures. Actual federal expenditures as a % of the federal budget were personnel costs (43%), benefits (8%), contractual (13%), supplies (.03%) and other costs, including occupancy, telecommunications, interest expense (36%).

A fully-audited financial statement prepared by Wipfli LLP for fiscal year ended February 28, 2019 is available on file at HEAD START of Greater Dallas, Inc., a 501 (c)(3) nonprofit tax-exempt Texas corporation.

FAMILY SERVICES

The Family Services Department is governed by Head Start Performance Standards and is responsible for the execution of Eligibility, Recruitment, Selection, Enrollment and Attendance (ERSEA) as well as building community partnerships. Our mission is to empower Family Advocates, Strengthen Families, and Build Strong Communities. The Family Services Department has worked diligently this year to provide uniformity within the department and to create a culture that fosters oneness and compliance.

Eligibility, Recruitment, Selection, Enrollment and Attendance (ERSEA) are the key areas to showcase the Family Services Department's successes. Head Start has maintained **97.99% of enrollment and had an overall average of 87.03%** in children's daily attendance during the 2018-2019 school year. Early Head Start has maintained over **96% enrollment during the 2018-2019 and 2017-2018** school years.

The Family Services Department hosted the Annual Community Partnership Fair on April 10, 2019 at the Hampton Suites & Convention Center in Mesquite. This year, Head Start of Greater Dallas partnered with The Mesquite Workforce Solutions. By joining forces with the Workforce, we were able to offer employment opportunities to parents as well as the community. Attendees were able to network with vendors for vital information about their services offered and other resources. Highlights from the Community Fair are as follows: 19 employers, 70 community vendors, 194 job seekers, 134 job offers, 15 contingent hires and 80 parents in attendance.

The chart shows a **84.21%** increase in community vendors between 2018 and 2019:

COMMUNITY VENDORS

84.21%
INCREASE

Head Start of Greater Dallas continued to implement the Ready Rosie Parent Curriculum which is a multifaceted innovative program that supports schools in optimizing family engagement. Ready Rosie is made up of the following core components: Implementation Readiness, Professional Development, Family Workshops, and Home Learning Curriculum.

Each year, HSGD provides a parent survey to offer parents the opportunity to evaluate, collect and understand the services and climate toward the center and their children's education and services provided from all content areas. The significant increase of parent survey respondents would allow the agency to work toward improvement of service delivery.

There was a **65.79%** increase of parent survey respondents for the 2018/2019 school year as opposed to 35% parent survey respondents for the 2017/2018 school year:

PARENT SURVEY

65.79%
INCREASE

HSGD EDUCATION DEPARTMENT:

Embarking Upon a Transformational Change

The overall goal of the HSGD Education Department is to bring about a greater degree of social competence in children considered at risk. Our mission is to prepare children for successful transitions to Kindergarten, and lay the foundation for healthy social competence.

No child should have to suffer from a missed opportunity due to their trauma; in fact, they are the ones that need us the most. Preschool expulsion is a concern around the globe. According to the National Association for the Education of Young Children (NAEYC) each year over 8,700 three and four-year-old children are expelled for a variety of reasons, including symptoms of trauma. (2017) Due to this disturbing number, HSGD must take preventative measures.

Through the implementation of Conscious Discipline, a research and evidence-based approach that has organized the Seven Powers for Conscious Adults and the Seven Skills of Discipline we have seen success. These skills will empower the teacher to provide safety, connection and problem-solving strategies for children in their classrooms. Components of Conscious Discipline embed within the Frog Street curriculum used with all Early Head Start Classrooms and nine Head Start centers.

Follow HSGD on social media @HeadStartDallas to follow our journey and and see how Head Start of Greater Dallas documents its expertise in Conscious Discipline.

SPECIAL SERVICES: INNOVATIONS AND SERVICE DELIVERY

SPECIAL SERVICES DEPARTMENT

In order to ensure effective delivery of disabilities and mental health services in accordance with the Head Start standards, the department consists of the following professional staff: Special Services Director, Special Services Coordinators, Special Services Specialists, Mental Health Professionals with LPC (MHPs), and Special Services Assistants. Over ten-percent enrollment of children with various special needs was met in partnership with the school districts and appropriate professional contractors.

Delivery of mental health services was carried out collaboratively with Mental Health Professionals, Special Services Coordinators and outside mental health agencies by serving all Head Start children in the classrooms in consultation with teachers and play therapy. Individual counseling services were provided to parents at their request, as well as, training to the parents on parenting skills and mental health/disabilities awareness. Having special services staff and licensed professional counselors on staff, allowed prompt identification and educational services for mental health challenges, such as emotional/behavioral disturbances in a timely manner.

There was ongoing training and consultation for teachers, in addition to the ones provided during in-service training at the beginning of the program year.

Over 120 age-eligible children were properly transitioned into public schools in accordance with the Transition Plan.

STARS CAMP

At the last annual Stars camp, more than 200 children with special needs and their parents attended the event held at the DD Ranch. This was an all-day event that provided various outdoor activities for children and educational/mental health topics for the parents. It was designed to celebrate all children and parents from their centers.

HEALTH

The Health Content Area is focused on the following each year to ensure quality service provision to children and families. The goal is the early identification of health problems and concerns in the children. Parent interviews, in partnership, with screenings are utilized for early detection. Once health concerns are presented, the health staff refer the families to community service providers. The staff work to ensure each family has established a medical home, the appropriate physicals and dental exams are completed and immunizations are current. HSGD has 1 Nurse Practitioner, 7 Health Specialists and 19 Health Assistants on staff to work with the children and their families. The staff provide health trainings and partner with various service providers in the community. In addition, HSGD's service provision is comprehensive in that all the center staff work together to address the needs of the children.

Highlights

- Recruit new health care providers annually
- Partnership with Filipino Lions Club to perform vision screenings in the centers
- Five different nursing programs for pediatric rotations (centers' in-kind earnings)
- Mission East Dallas Dental Program for all sites
- Always support agency events ("Round-up," Health Fairs, Stars Camp)

Health Insurance	95%
• Medicaid/CHIP	92%
• Private Insurance	3%
No Health Insurance	4%
Physical Exams completed	91%

Immunization completed	34%
Immunizations up-to-date	58%

NUTRITION

The Nutrition Content Area has been focused on educating the children enrolled, their families and HSGD staff on the benefits of healthy eating. HSGD has a long history of addressing the specific nutrition concerns of each child, as well as, being at the forefront of addressing childhood obesity. The nutrition department provides two thirds of each child's daily meals, providing breakfast, lunch and a snack each day. Below outlines the accomplishments and observations of the nutrition program for children served by HSGD:

Meals Claimed for Reimbursement: 895,450

Growth Assessments of the children enrolled:

- 69% - normal weight
- 17% - at risk for obesity
- 13% - obese
- 2% underweight

Special Dietary Needs:

- 297 special diet accommodations provided
