CRITERIA	WEIGHT FACTOR
a. Unit Price	5
b. Quality	4
c. Delivery/Service	3
d. Solicitation meeting Specifications	2
e. Small Business/Minority/Woman Owned	1

Method used in the collection of data.

1. Unit price scoring is determined by taking the lowest bid from a **responsive and accepted** bidder and dividing all other bids into the low bid and multiplying by 10 to get the raw score. The raw score is used to (in the case of more than 5 bidders) to qualify bidders as finalist. The finalists are then subjected to Review and analysis using the other Criteria.
2. Quality/Service/Delivery scoring is determined by but not inclusive of site visits by the Review Committee, conducting testing and/or trials of the product, reviewing product information, past experience, observation, and/or extensive references checks.
3. The specifications raw score is achieved by the Review Committee and/or Purchasing Agent comparing bids with specifications, comparing bids with each other, and/or comparing the bids with industry standards.
4. The raw score for Small Business/Minority/Woman Owned is derived from actual documentation from a recognized governmental agency as to their status. An Offeror qualifies as a small business firm, if it meets the definition of “small business” as established by the Small Business Administration (13 CFR 121.3-8) by qualifying as such using the Size Standards Tool at <http://www.sba.gov>. Please provide a copy of the results to get credit for being a “small business.”
5. All raw scores are entered into a factor analysis spreadsheet, which automatically multiplies them by the weight factor and adds the total final score for each bidder.
6. The Review Committee normally (but has the right for good cause not to) recommends the bidder with the highest score to be awarded the contract.
