

1) May I have the previous tabulations & itemized award report?

We have received your e-mail dated December 6, 2024, requesting a copy of our recent bid tabulation report of IFB#25-CPS chemical and paper supplies. The public cannot access these documents. Our policy is to allow public viewing of the award bid for thirty days from the date of the award. We do not distribute any copies of the award. Copies of the award are furnished for your review but cannot be removed from our office.

However, it is almost three years. In this case, the scope of work has changed making the prior award amount irrelevant to the current solicitation and therefore is not available.

2) Will this be awarded to one vendor, or to the line item?

This bid is only awarded to one vendor.

3) Do each of the receiving locations have a loading dock and /or forklift?

Not all locations have a loading dock and forklift.

4) Approximately, how often are orders placed, & in what quantities?

We do not have the record of order frequency and the number of quantities for each order. It is totally dependent on the number of kids enrolled for each semester.

5) If a Backorder is taking too long, can it be cancelled?

Yes, call the Sales Rep. Or he may be able to offer a substitute if available.
